

Bridal Portrait

Wedding Photography is the one item in your wedding budget that will last forever. The cake was pretty but it was gone in an hour. The flowers were beautiful but they were thrown away after the service. You will want to remember your wedding and all the events leading up to it forever and will want to pass those memories on for generations to come.

The Formal Bridal Portrait can be the most important part of not only remembering your wedding, but creating a “work of art” that will hang in a place of honor in your home for many years to come. Bridal Portraits can be timeless. Many people use the formal bridal portrait as the centerpiece of decorating their home. Even furniture is sometimes purchased to “go with” the work of art that is their most prized photograph.

Most wedding photography on the day of the wedding can not capture the bride in the appropriate portrait setting. Too many other things are happening too fast! I allow up to two hours photography time to create the perfect bridal portrait that you will be proud to display in your home for generations to come.

The Bridal Session is \$300.00 and includes a mounted 16 x 24 portrait ready to frame. Two 8 x 10's of the same pose are also included. Additional prints and enlargement as well as a selection of suitable frames at our standard pricing are available as options. Package can be tailored to your needs.
